

Steps to enroll in a virtual instruction program:

Start: Go to NEFEC.org, then click on Student Registration

Click on your school district

View the eligibility requirements and options your school district offers for virtual education.

Choose which option that will best be for your student, then follow directions from the link given.

Legal Guardian then contacts the district's Virtual Instruction Specialist

Discuss:

- Additional district paperwork needs.
- Why you are choosing virtual education.

District will collect any additional paperwork needed and then approve/deny applications

Once approved, curriculum will be ordered for student to begin on designated start date.

Once a virtual instruction program has been approved, what is next?
