

Hello Glades County Families,

We have less than six weeks left of this school year! Some elementary grades have completed their Community Wellbeing lessons. We have provided an outline for the final two lessons from the Community Wellbeing Pillar for the intermediate and higher grade levels. Please take a moment to look over the next two lessons of the community pillar. As a reminder, these lessons may look a little different for each grade level; in fact lower grade levels have completed the lessons for this pillar and will spend the remainder of this time revisiting previous lessons and reinforcing the prosocial skills learned throughout this curriculum.

If you should have any questions or concerns about these lessons please feel free to contact either Andrea Schillinger, the Director of ESE and/or Jay Reed, LCSW the District's Lead Mental Health Specialist. Please see their contact information below.

Lesson Outline

Lesson Thirteen - Trust and Collaboration - Part Two (Approximately 30 minutes) -

Students will continue to learn and practice prosocial behaviors that build upon working as a team.

Lesson Fourteen: Community in the Everyday (Approximately 30 minutes) - Students will understand that they can create wellbeing communities and use prosocial skills in everyday life.

Thank you again for helping us embark on this journey to build a more compassionate community for our students.
